

ROWELL T. CRUZ

(+63) 963 660 7582 | cruzrowellt11@gmail.com | Bocaue, Bulacan, Philippines | <https://github.com/rowellcruz>

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, PHP, Java, SQL, HTML5, CSS3
- **Web & Frameworks:** React, Node.js, RESTful APIs, Webhooks
- **Databases:** PostgreSQL, MySQL, Firebase / Firestore, Relational Schema Design
- **Developer Tools:** Git, GitHub, Postman, VS Code
- **Systems & Environment:** Linux/Windows fundamentals, TCP/IP, Microsoft 365 Admin

PROJECTS

RICECHAIN: Rice Supply-chain Traceability

- Developed a responsive web application frontend using ReactJS and TypeScript to track user workflows.
- Integrated Web3 wallet authentication (MetaMask) alongside RESTful endpoints to manage and display immutable stage updates.
- Structured frontend state management and input sanitization to prevent malformed data submissions.

AssetONE: Web App Asset Monitoring and Maintenance Tracker

- Developed a database-backed tracking application to digitize paper-based asset maintenance records and workflows.
- Designed and normalized a relational PostgreSQL schema to handle asset lifecycles, maintenance schedules, and audit queries.
- Implemented core CRUD interfaces and data-entry validation routines to ensure data consistency across reports.

RELEVANT EXPERIENCE

IT Intern – Dr. Yanga’s Colleges, Inc. (Bocaue, Bulacan)

January 2026 – April 2026

- Collaborated with developers on institutional portal initiatives, contributing to relational database schema design and cloud database configurations (Firebase/Firestore).
- Tested, verified, and debugged RESTful API endpoints and data flows between campus services using Postman.
- Assisted with workstation deployment, local network troubleshooting (LAN/TCP-IP), and server accessibility checks during high-volume institutional accreditations.
- Managed user provisioning, role-based permissions, and service access across faculty and student directories.

Logistics & Data Operations Associate (Part-Time) – J&T Express (Marilao, Bulacan)

2022 - 2023

- Logged and verified high-volume dispatch and package records within internal logistics software, maintaining zero-error data integrity during peak sales volume.
- Managed bin allocation and inventory tracking across fast-paced order fulfillment cycles.

EDUCATION

Bachelor of Science in Information Technology

2022 – 2026

Dr. Yanga’s Colleges, Inc.
